

Lockout / Tagout Awareness Training

This course is designed to inform affected and authorized employees of the procedures to be used in the lockout/tagout process to ensure safety & protection during repair and maintenance of equipment. Employees will receive instructions in proper lockout/tagout procedures, the use of locks and tags, proper removal of lockout/ tagout devices and potential hazards involved in the lockout/tagout process.

Who should attend:

Affected Employees: Employees who operate or use a machine or equipment on which servicing or maintenance is being performed, or whose job requires him/her to work in an area in which such servicing or maintenance is being performed.

Authorized Employees: Employees who lock-out or tag-out machines or equipment to perform servicing or maintenance.
