Course Outline

Regulations

Terminology

Statistics

Identifying Confined Spaces

Hazard Identification

Pre-entry Planning

Control Measures

Ventilation

Atmospheric Testing

Confined Space Program

Entry Permits

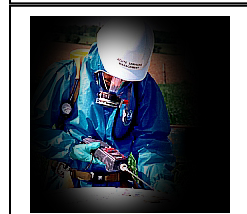

Personal Protective Equipment

Non Entry rescue

DID You Know?

Many of the fatalities occurring in confined spaces are persons trying to rescue a friend or co-worker.

50% of confined space accidents are caused by Oxygen deficiency or a toxic atmosphere; 1 in 4 involve explosion or fire; 1 in 5 involve entrapment, crushing or falling objects; the remainder were due to electrocution, drowning and temperature extremes.
