Letter of Recommendation: ALL-TECH Environmental Services Limited

I am honored to have been asked to provide a letter of reference for ALL-TECH Environmental Services Limited. I write this letter of recommendation for ALL-TECH with complete confidence and experience in the Environmental field. Cape Environmental Limited has repeatedly retained the professional services offered by this firm over many years and I have personally seen this firm grow from its' original office which was started here in Sydney back in 1993.

I owe and operate a mould and asbestos abatement company since 2009 here in Sydney, and have worked with ALL-TECH through many projects either directly contracted or alongside with different jobs and projects throughout the years.

ALL-TECH regularly demonstrates its ability to deliver excellent quality service to my company which makes ALL-TECH on my "go to" list when dealing with environmental and consulting services.

I strongly look forward to the continued business relationship with this exceptional company and I recommend ALL-TECH to any business or individual inquiring about knowledgeable and experience in the environmental service industry.

Sincerely,

Ken Rogers – Owner
Cape Environmental Limited
